## EXPERIENCE

### Front-End Engineer

SEKOIA.IO

April 2022 - Present, Remote

- Spearheaded the development of Playbooks modules using Angular and JointJS, enabling Sekoia customers to automate actions and tasks.
- Designed and implemented user-friendly interfaces that enhance the overall user experience and engagement rates.
- Created and maintained test cases for new features to improve overall testing coverage and streamline the development process using cypress first and later migrated to playwright.
- Partnered with product team to gather feedback and refine application features based on user needs.
- Collaborated closely with backend engineers to develop features that met high engineering standards.

### Front-End Engineer

Convelio

July 2021 - April 2022, Remote

- Implemented user-friendly interfaces and ensured cross-browser compatibility to deliver a consistent look and functionality.
- Collaborated with client services, sales, and design teams in a fast-paced, deadline-driven environment to efficiently achieve project goals.

### Software Engineer

Capgemini

February 2017 - July 2021, Suresnes, France

- Spearheaded the migration of particulier.edf.fr, initially leveraging AngularJS and later transitioning to Angular and Adobe Experience Manager, to enhance website performance and user interface while adhering to stringent code quality standards.
- Built a full-stack application for Groupe PSA with Angular and Java to seamlessly connect mechanics and customers, streamlining service requests and communication.
- Mentored junior developers in front-end best practices, fostering their growth and improving team performance through regular code reviews, pair programming and feedback sessions.
- Enhanced the UI of EDF's website customization tools, reducing content creation time by 67% and significantly improving the workflow's efficiency.

---

## EDUCATION

### Engineering Degree in Computer Science

University of Technology of Belfort-Montbéliard • Belfort, France • 2017

### Associate of Science: Computer And Information Sciences

Ecole Supérieure De Télécommunications Du Bénin • Bénin • 2013

---

## SKILLS, TOOLS, LANGUAGES

Skills: Angular, Javascript, Typescript, Jest, Html/CSS, ReactJs, Cypress, d3.js, JointJs, TailwindCSS, React Native

Certifications: Cisco Certified Network Associate (CCNA)

Tools: Git, Figma, Storybook, Expo

Languages: English (C2), French (Native)
